Work

2020-08 Data Engineer, ICA Gruppen, Stockholm.

- current o Maintaining and building data pipelines for personalized marketing in Spark and Python
 - Pipeline scheduling in Airflow and bash
 - Setting up CI/CD in Jenkins and Gitlab CI
 - Maintaining the on-prem Hadoop cluster's health, such as:
 - Approving cluster changes
 - Ensuring GDPR compliance by monitoring and automatically deleting old data
 - Decreasing the number of small files
 - Leading effort on integration testing to decrease lead time for cluster upgrades
- 2018-01 Database Technology Lab Assistant, Linköping Institute of Technology, Linköping.
- 2019-01 I taught 100 Master's degree students about SQL, Database Design, EER-diagrams, Relational Models and Database Normalization.
- 2015-10 **Science Teacher**, *Streteredsskolan*, Kållered.
- 2016-06 Worked a school year as a middle school science teacher.

2019-06 English Volunteer, Ganbaro Miyagi, Hokkaido, Japan.

I was an English speaking volunteer at a Japanese summer camp to promote cultural exchange.

- 2016-06 Rode a bicycle 10 000km from New York to Costa Rica.
- 2017-02 Got strong legs, a perspective on life and ate a lot of tacos! Here is a picture of my route!

Education

- 2017-03 M.Sc. Computer Science and Supply Chain Management, Linköping Institute of 2020-05 Technology, Linköping, Sweden.
 - o Master's thesis: Used data mining to find an allocation for a picking machine at Apotea AB (an online pharmacy). The allocation yielded a 5% increase in efficiency without any additional costs. Read thesis here! See the python code here!
 - Student Union: Was Head of IT for LARM, Linköping's largest career fair, in 2018-2019. One cool thing I did was creating a mathematically optimal interview schedule with gurobi and python. See that project here!
- 2014-08 B.Sc Computer Engineering, Karlsruhe Institute of Technology, Karlsruhe, Germany.
- 2015-08 Erasmus year in Germany, where I also finished by Bachelor's thesis
- 2012-08 B.Sc Computer Engineering, Linköping Institute of Technology, Linköping, Sweden.
- 2014-08 With some extra courses in German

Technologies

DevOps Docker, Jenkins, Ansible, Gitlab CI, Drone

Data Eng. Python, SQL, Elasticsearch, Airflow, Spark, Hadoop

General GNU/Linux, Git, bash, Traefik, Proxmox, Agile

Languages

Swedish Native Speaker Can't say R correctly

English Fluent Occasionally with a southern twang from my weeks in the deep south

German Good knowledge (B2) Good reading and listening comprehension, adequate speaking

Spanish Good enough Survived 5 months in Latin America

Side Projects

Home Server I have a home server that I am hosting different things on, for example my website

dahl.dev. Running several docker containers that all interact with each other in some

way, check out a more detailed description here!

Elastic Stack I am capturing external ssh requests to my server and sending them to Elastic through

 $Log stash\ to\ create\ some\ cool\ Kibana\ dashboards\ of\ hackers\ trying\ to\ brute\ force\ my\ ssh$

password. Link to the dashboard. Read more about my Elastic Stack here!

Web Pipeline I built my own place on the internet (dahl.dev) with Angular, link to repo. To make everything as automatic as possible I have a CD pipeline set up with Docker, github,

Drone and Watchtower. Upon each push to master Drone will build a Docker image, push it to dockerhub and then watchtower till pull and deploy it on my server. See a

more detailed description here!
